

Oceanis 40.1

DISCOVER

A high-angle, close-up shot of a sailboat's deck and rigging. The boat is white with dark grey cushions and wooden decking. The background is a deep teal color, likely the water. A semi-transparent white rectangular box is overlaid on the lower half of the image, containing the title and two paragraphs of text.

OCEANIS LEGEND

When the very first Oceanis set sail in 1986, it was hard to imagine that it would give rise to a legend that would set the standard in international cruising. After more than thirty years of unwavering success, the Oceanis name has become synonymous with comfort, agility and ease of use: whether at sea or at anchor, in light winds or in a gale, the boat always makes good on her promises. The new generation offers enhanced balance, elegance, comfort and performance, bringing further refinement to an impeccable pedigree.

A full-page background image of a sailboat on the water at sunset. The sailboat is on the right side, with its mast and sails visible. The sky is a warm orange and yellow, and the water is dark with some ripples. The text is overlaid on a white rectangular area on the left side of the image.

40.1

40 FEET OF SPACE!

This 40-foot cruiser, with a new hull design by Marc Lombard, offers unrivalled deck volume and interior space with no concessions to performance.

The Oceanis 40.1 is available in different layouts, drafts and rigs, adapting to the most demanding sailor's cruising requirements and satisfying their need for comfort and pleasure under sail.

Nauta Design

“The Oceanis 40.1 has a fabulous new “C-shaped” cockpit, which is very broad and long and whose dimensions are uncommon on yachts this size, making it a really comfortable and functional social deck space.

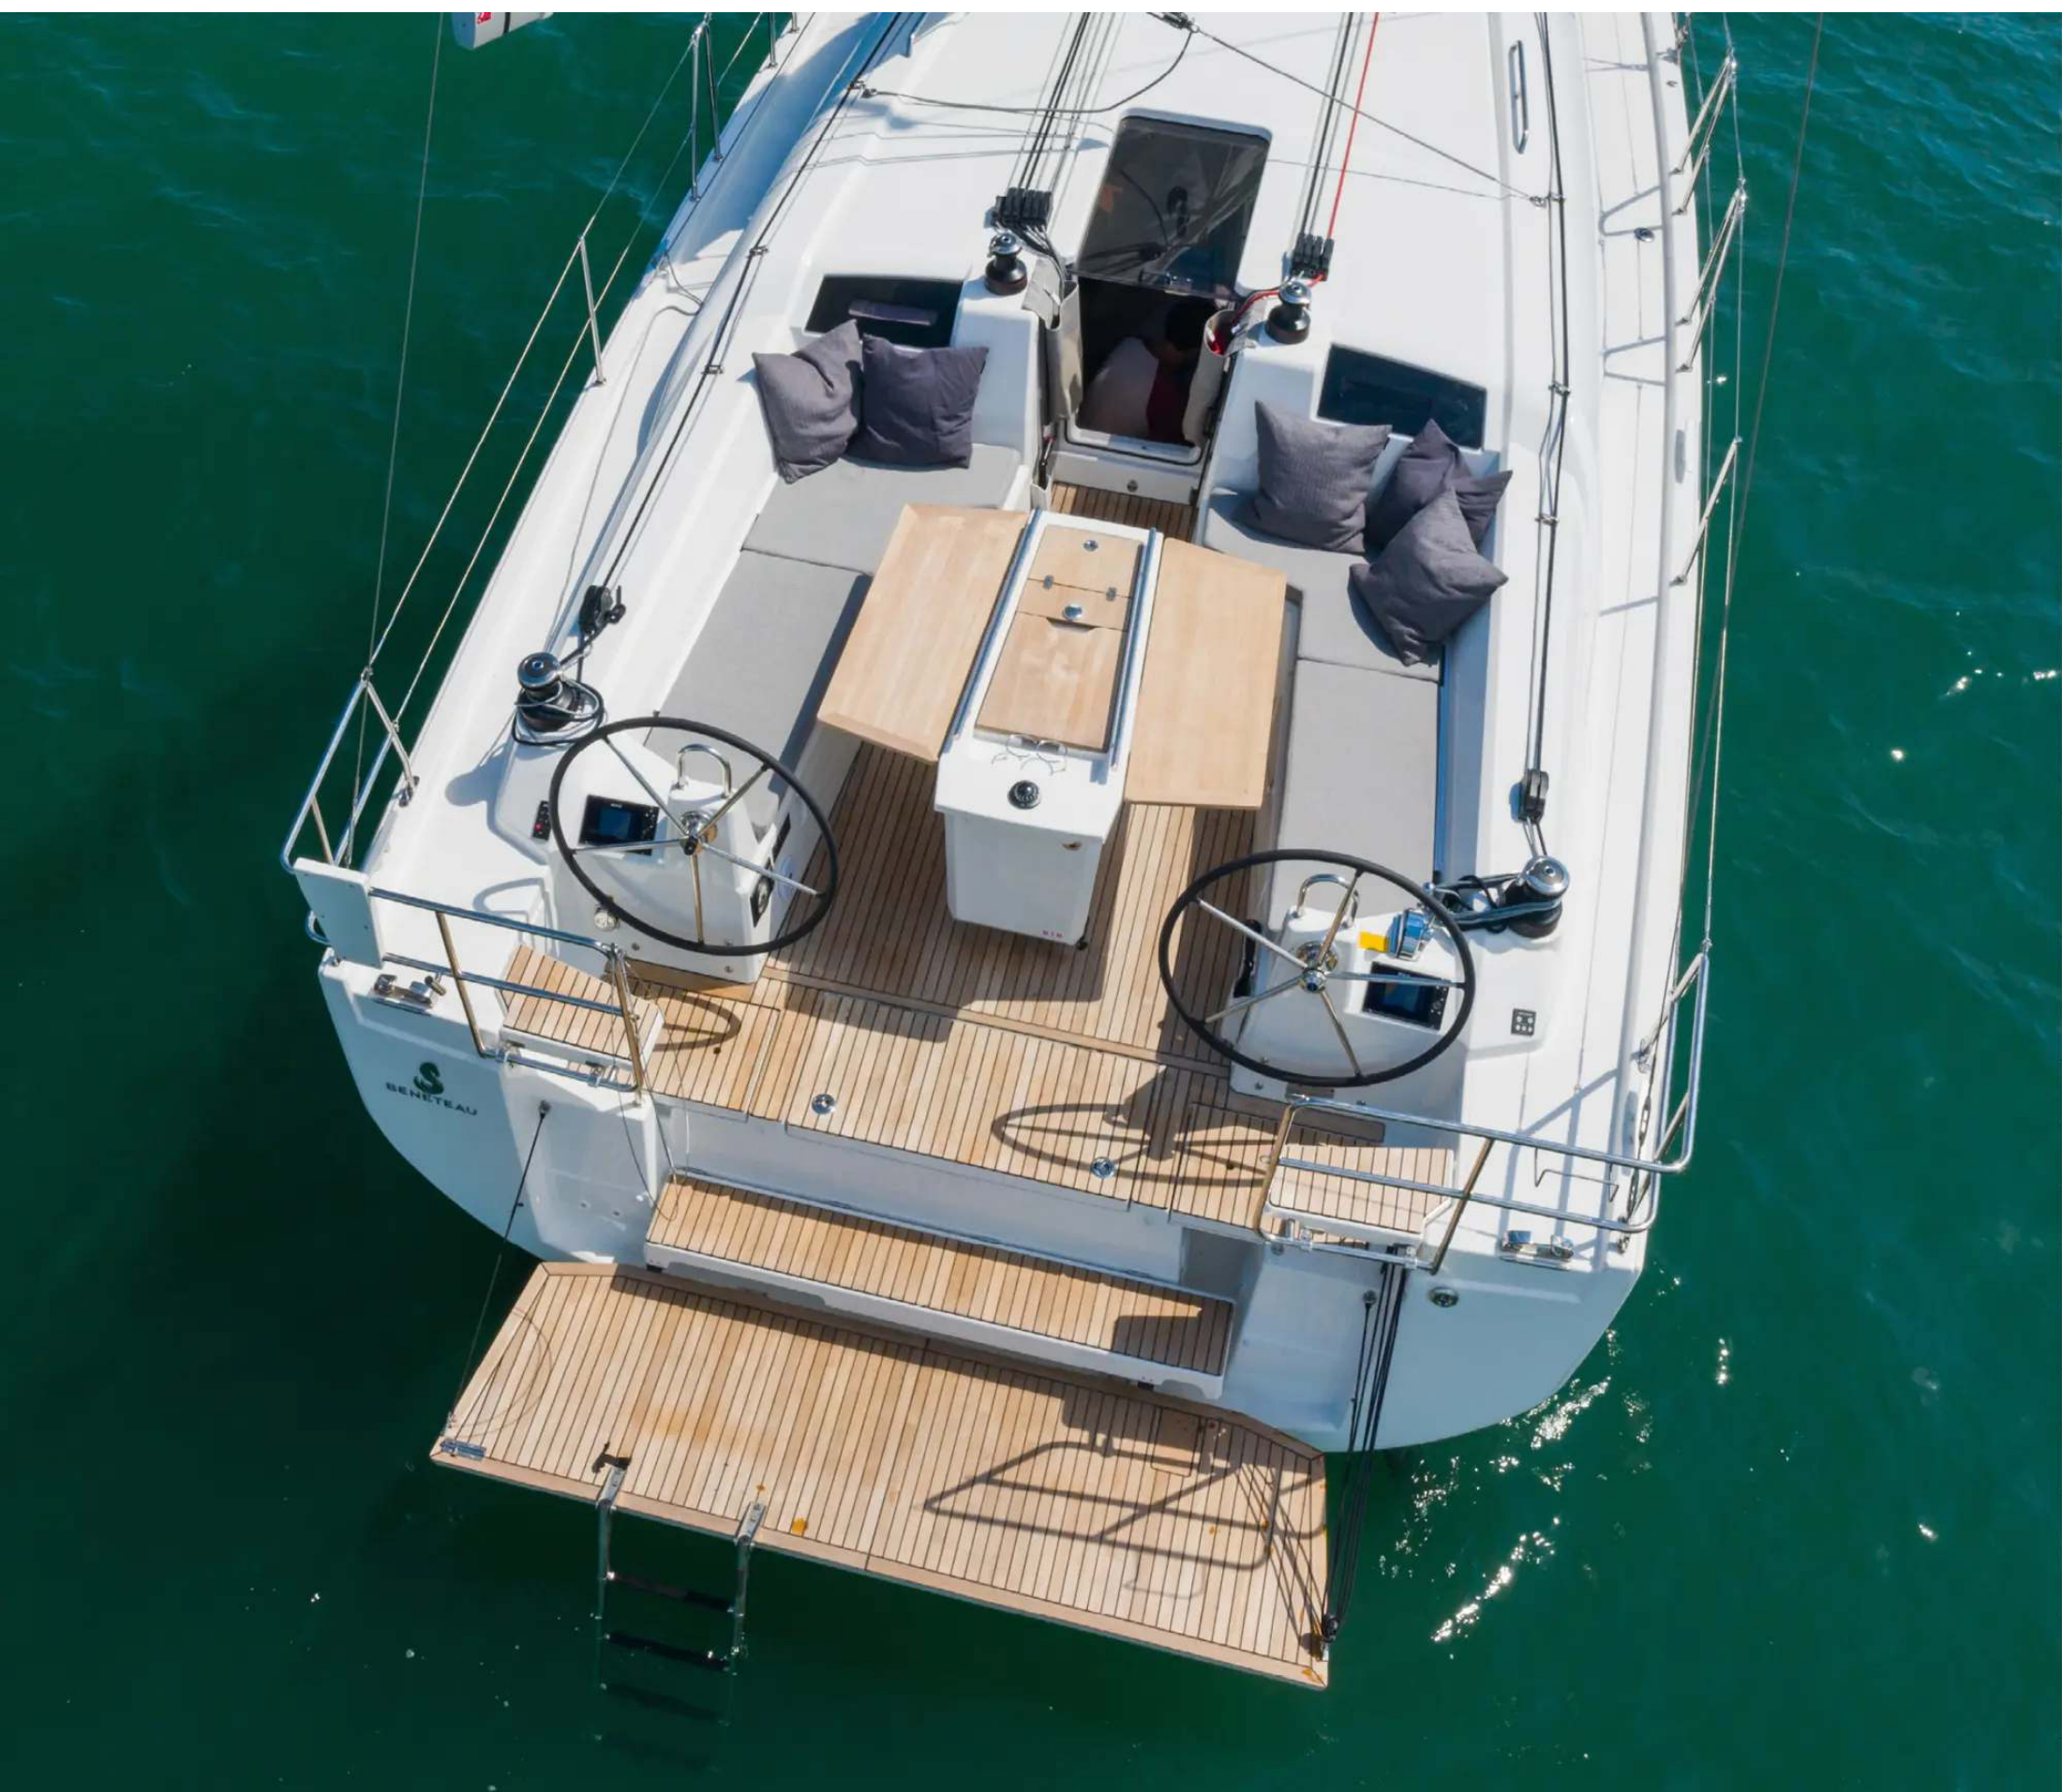

The interior has a new layout with a “forward galley” solution, creating a vast galley space. The horseshoe layout galley design is also brand new, but still leaves a lot of space in the very comfortable well-organized dining area, seamlessly connecting with the exterior. In comparison to her competitors, the yacht stands out for the amount of space perceived as well as for her usable storage.”

SMART

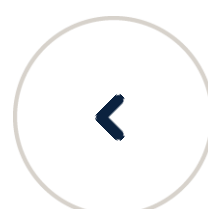

With the innovative flared hull design of the Oceanis 40.1, and steps extending over a third of the bow, BENETEAU has broken new ground but made no concessions.

The result is a hull that has true speed potential and is stiff under sail. Above the waterline, her deck plan and ultra-spacious interior are unheard of on a boat this size !

The ergonomics and easy movement in the cockpit make life on board as simple as possible. Nothing interferes with the joy of life at anchor. Feel like splashing around the boat in an idyllic creek? The transom easily converts to an extensive swim platform, similar in size to the ones you'll find on the largest Oceanis cruising yachts. Having access to the sea is an integral part of life on a boat, and this one is a model of its kind.

COMFORT

With a sand oak ambiance, the styling of the interior by Italian designers Nauta is remarkably bright and excels in a skillful arrangement of the living spaces.

The hatches and many hull and coachroof portholes fill the boat with natural light and ventilation, bringing an exceptionally airy feeling to the interior, as well as the unmistakable sensation you are entering a much larger yacht! The Oceanis 40.1 comes in 4 different versions with two, three, or four cabins to fit everyone's idea of a true vacation on board.

The C-shaped galley to starboard offers lots of storage and a spacious worktop. On the port side, there is a large salon with a table and a removable bench. A chart table at the base of the companionway provides additional working space, and the easy flow of motion between the different areas of the interior will make both couples and large families feel just like at home. The owner's version offers a stateroom with ensuite shower and head, and a bed easily accessed from either side. The new four-cabin version now offers two symmetrical cabins forward.

FAST

As there is no one way to sail, and because everyone cruises at their own pace, the Oceanis 40.1 comes in several versions.

Sailors keen on performance can choose the First Line version, with a longer mast and a greater draft. The in-mast furling system and self-tacking jib will make maneuvering easier when shorthanded. A classic mast with a semi-fullbatten mainsail is also available.
